

Key Medical Group, in partnership with Key Medical Associates, is looking for a full-time Advanced Practice Practitioner to assist in leading and supporting Key Medical Group's various population health programs and initiatives. Ideally, this provider has experience in primary care and chronic disease management, and in particular geriatrics.

The APP will provide clinical care to Key Medical Group members through a variety of forums, such as in-person, via telemedicine and at-home visits. These visits will include comprehensive assessments, quality gap closures as well as other primary care components based on the needs of the patient. Additionally, Provider may also participate in Key Medical Group's Comprehensive Care Programs.

This role will be responsible for the training and development of other Key Medical Group providers to further the engagement and overall effectiveness of the population health programs along with other initiatives that are determined to be beneficial to furthering the efforts of Key Medical Group in providing quality care to their members.

The APP will work under the clinical direction of the Medical Director for Key Medical Group and Key Medical Associates and in partnership with their respective administrators.
